

Enhanced Water Quality Monitoring Programme

- MVO: Drinking water quality matters to us all.
The Water Supplies Department has launched the Enhanced Water Quality Monitoring Programme to check water quality and collect data to review the drinking water standard.
- Super: Enhanced Water Quality Monitoring Programme
- MVO: Selected water consumers will receive invitation letters.
A team wearing uniforms and staff cards may visit them during the period stated in the letter, and with consent will collect water samples to test for six metals.
- Super: Antimony Cadmium Chromium Copper Lead Nickel
- MVO: Consumers will receive the test results later.
For enquiries, call 2824 5000.
