If you are a limited liability company, then you are required to submit documentary proof that the majority of the voting power in meetings of the company shall be held by directors who are consulting engineers (or equivalent professionals of associated professions).

You are required to comply with the "Requirements for ISO 9001 Certification", and submit all necessary documents together with your Expression of Interest.

Regarding the qualification of the Advisor as mentioned in Clause 4.1 (a) of the draft Brief, Clause 6(A) of the Special Conditions of Employment is attached for your information.

You are also required to declare any involvement or interest if it is considered by you to be in real or apparent conflict with the duties to be performed for this consultancy. In particular, you are required to request your Advisor and Alternative Advisor to be nominated for this consultancy to complete the attached respective declaration forms. Please submit the two declaration forms together with the Expression of Interest submission. Any involvement or interest declared would be carefully considered but would not automatically bar you from being further considered in the selection process.

The initial list of qualified consultants approached for this Assignment is attached for your information. Based on the response received, normally 4 suitable firms/consortia will be shortlisted for submission of Technical and Fee proposals.

No Consultants are permitted to submit more than one bid for the same agreement. For the avoidance of doubt, Consultants who submit a bid in their own name and a bid in the name of an un-incorporated joint venture/partnership (with the Consultants concerned as a participant/partner) will be considered as having submitted two bids. Consultants (these must be consulting firms to be eligible for being considered for this consultant selection exercise) having linkages to each other, e.g. subsidiaries, parent or sister companies, are not allowed to bid on the same agreement. Only one firm among such consultants, as the case may be, should be allowed to submit Expression of Interest for a consultancy agreement. You are thus required to declare any linkage with other consultants on the above list. The existence of a holding-subsidiary relationship shall be determined in accordance with the provisions in Section 2(4) to (8) of the Companies Ordinance, Cap 32. "Sister companies" shall mean all companies which are subsidiaries of or otherwise belonging to the same holding company. Consultants having linkages should sort out among themselves before submitting any Expression of Interest.

For the purpose of this "no linkage" requirement, an academic institution and any separate entities/companies formed by the same academic institution or any of its current staff, or any two of such entities/companies (whether formed by the same staff or not), shall be regarded as "linked". An academic institution, and all such entities/companies formed by it or any of its current staff (whether by the same staff or not), shall be allowed to submit only one Expression of Interest for the same consultancy agreement. You are also required to declare any such linkage with other consultants on the above list, if applicable. An entity/company is regarded as formed by the academic institution or its staff if the latter is a partner/shareholder or a director of the former, whether or not the latter is a founding partner/subscriber when the entity/company was formed.

Failure to observe this requirement shall render all related Expression of Interest submitted null and void and any such submission will not be considered.

Please note that the documents of unsuccessful consulting firms will be destroyed three months after the date the Agreement has been awarded and signed.

Please also note that the Government will not be responsible for the reimbursement of any cost incurred by you for the preparation of the submission.

The electronic documents for preparing your submission are attached in Schedule 2 of the attached "Licence Conditions for Electronic Invitation Packages". You will be deemed to have accepted these conditions if you use the documents listed in Schedule 2.

The record drawings of the reservoirs and other relevant information as referred to in the draft Brief (13 January 2012), where available, can be inspected with prior arrangement at Chief Engineer/Development(2)'s office during normal office hours.
