

Water Conservation Starts from Home

Turn off the tap while brushing teeth, soaping hands or shaving.

Don't wash dishes and produce under a running tap.

Water plants with the same water used for washing vegetables and fruit.

Take short showers instead of baths.

Only run washing machines or dishwashers with a full load.

User water saving devices, e.g. water efficient showerhead/tap, dual flush toilet cistern, and pay attention to water efficiency labels.

Fix dripping taps and water mains promptly.

Wash cars with the water bucket and towel, instead of the hose.
