

**Data Specification for
Statistics on private water pipe leakages**

Statistics on private water pipe leakages are provided by WATER SUPPLIES DEPARTMENT. This web service returns up-to-date data in CSV format.

[Statistics on private water pipe leakages \(English\)](#)

Item	Description	Note
Repair Notices issued under WWO Section 16	The Water Authority may issue a repair notice to the registered consumer/agent to fix the leaking pipes under Waterworks Ordinance Section 16.	Proper maintenance and repairs of water pipes play an essential part in water conservation. In this connection, the Water Supplies Department has been taking decisive actions to require consumers to fix leaking water pipes and handling private water pipe leakages.
Disconnection Notices issued under WWO Section 11	If the registered consumer/agent fails to carry out the repairs or other works specified in the repair notice, the Water Authority shall issue a disconnection notice to the registered consumer/agent under Waterworks Ordinance Section 11.	
Disconnections made under WWO Section 10	If the disconnection notice is unattended, the Water Authority may disconnect an inside service/fire service according to Waterworks Ordinance Section 10.
