Dear Sirs,

**Addendum No. 1 to WSD Circular Letter No. 14/2025**

**Self-Certification Scheme for Plumbing Works and  
Installation of Separate Water Meters for Subdivided Units (SDUs)  
in Residential Premises**

To facilitate the operation of installation of separate water meters for SDUs, Circular Letter No. 14/2025 is amended as summarised below:

- (i) Regular briefings are provided for licensed plumbers (LPs) to familiarise themselves with the application procedures on the subject scheme. Paragraphs 2 and 4 are revised.
2. For easy reference, a complete set of Circular Letter No. 14/2025 with addenda subsumed is enclosed.
3. Should you have any enquiry, please contact our Engineer/Technical Support(5) at telephone no. 2829 4574.

Yours faithfully,

(Original Signed)

Dear Sirs,

## WSD Circular Letter No. 14/2025

### Self-Certification Scheme for Plumbing Works and Installation of Separate Water Meters for Subdivided Units (SDUs) in Residential Premises

The Basic Housing Units Ordinance (The Ordinance) (Cap. 658) seeks to introduce a regulatory regime for the letting of subdivided units (SDUs) of domestic buildings or of the domestic parts of composite buildings. Under the Basic Housing Unit (BHU) regulatory regime, SDUs of residential buildings have to comply with minimum standards of living conditions and obtain BHU recognition before they can be legally let out for habitation. This aims to ensure the provision of safe, hygienic and reasonable living conditions in SDUs. One of the minimum standards is that each SDU must be installed with designated separate water meter provided by Water Supplies Department (WSD).

2. To facilitate the installation of water meters for SDUs in which separate plumbing systems are already in place, WSD launches a self-certification scheme by licensed plumbers (the Scheme) to streamline the processing of application. *Regular briefings<sup>1</sup> are held for licensed plumbers (LPs) to familiarise themselves with the application procedures on the Scheme. (Addendum No. 1)*

#### Scope of Works

3. The Scheme is applicable to installation of separate water meters for SDUs and apply to the Water Authority for adopting fresh water for flushing<sup>2</sup>. The associated

<sup>1</sup> The briefing will be held by WSD or other organisations designated by WSD.

<sup>2</sup> Apart from the original flushing system using salt water or temporary mains water for flushing (TMF), fresh water branched from the fresh water system for flushing within the flat due to technical difficulties is also allowed. Given the different charging rates of fresh water for domestic and flushing purposes, the flushing pipe shall be installed with a flushing meter and branched off before separate water meters, while each branch shall

plumbing works shall comply with standard plumbing drawings and relevant requirements in “Technical Requirements for Plumbing Works in Buildings” (TR) in respect of BHUs (**Appendix A**) covered by the respective forms.

4. The applicant should notify the WA of joining the Scheme (**Appendix B**). The above works (including plumbing works and installation of separate water meters and double check valve (if applicable)) should be carried out by eligible LP who should *possess at least 3 years post-plumber licence experience.*(Addendum No. 1)

5. A list of eligible LPs will be uploaded to the WSD’s website and updated regularly. An LP receiving a warning letter<sup>3</sup> for plumbing works and/or meter installation for SDU will be temporarily suspended from taking up self-certification of new plumbing works and/or meter installation for SDU for 6 months (starting from the date of the warning letter concerned) and removed from the above list, whereas the WA will trigger additional audit checks on the on-going plumbing works and/or meter installation for SDU undertaken by that LP.

6. To facilitate meter reading, the applicant can alternatively choose to install smart meters<sup>4</sup> in Advanced Metering Infrastructure (AMI) to facilitate automatic meter readings in the flat housing the SDUs. The applicant will request meter interfacing units (MIUs) from WSD at a standard charge to be published in WSD website<sup>5</sup>. The charge shall be settled at least 1 month prior to collection of the smart meters. The smart meters can be installed within the common corridor of the residential flat. If the smart meters are proposed to be installed inside individual SDUs, separate application with justifications should be submitted to seek the WA’s approval.

## Workflow

7. To apply for recognition as BHU<sup>6</sup>, installation of separate water meters will be one of the minimum standards to be met, and handling of the applications can be categorised into:

Scenario (A) – Plumbing works include installation of water meters and other plumbing works<sup>7</sup>.

Scenario (B) – Plumbing works only includes installation of separate water meters.

---

be installed with a double check valve and a control valve before each flushing cistern. Under this arrangement, the applicant for separate water meter installation shall be the RC of the flushing meter and the charge rate of the flushing meter shall follow standard charge rate of TMF. If salt water or TMF is used for flushing, only a control valve shall be installed before each flushing cistern.

<sup>3</sup> Issued under the Penalty and Demerit Point System.

<sup>4</sup> It is a mechanical meter coupling with a meter interfacing unit (MIU).

<sup>5</sup> Link to WSD website: <https://www.wsd.gov.hk/en/plumbing-engineering/automatic-meter-reading/index.html>

<sup>6</sup> The flat housing the SDUs should basically meet the following criteria:

- the flat is split into two or more SDUs;
- the flat is in domestic building or domestic portion of composite building; and
- there are separate plumbing systems for each SDU

<sup>7</sup> Except the works of a minor nature according to the Waterworks Ordinance. For definition of works of a minor nature, please refer to WSD website: <https://www.wsd.gov.hk/en/plumbing-engineering/works-of-a-minor-nature/index.html>

8. The tables below summarise key procedures of the Scheme and implied workflow.

Scenario (A)

	Key procedure	Proposed workflow
1	The applicant to employ an eligible LP as responsible licensed plumber (RLP) for the plumbing works, installation of separate water meters and double check valve (if applicable)	<ul style="list-style-type: none"> <li>The applicant should employ an eligible LP as RLP to submit WWO 542 with a plumbing proposal, with notification to the WA to join the Scheme (<b>Appendix B</b>).</li> <li>The WA will reply to the applicant to approve/comment on the application within 2 weeks upon receipt.</li> </ul>
2	The RLP to conduct plumbing works, installation of separate water meters and double check valve (if applicable)	<ul style="list-style-type: none"> <li>The RLP should submit WWO 46A Part I &amp; Part II (<b>Appendix C</b>) to the WA before commencement of the plumbing works.</li> <li>WWO 1149 is optional to be submitted along with WWO 46A Part I &amp; Part II but the RLP should undertake that the pipes and fittings to be installed are with General Acceptance (GA) and in accordance with the Waterworks Ordinance (WWO)/Waterworks Regulations (WWR) and the WA's requirements.</li> <li>The WA will issue WWO 46A Part III with the approved drawings marked with water sampling point(s) and location(s) for non-destructive tests on lead content at solder joints, or reply with comments within 2 weeks upon receiving WWO 46A Part I &amp; Part II.</li> </ul>
3	The RLP to report completion, and apply for effect of water supply and installation of separate water meters and double check valves for flushing facilities using fresh water	<ul style="list-style-type: none"> <li>Upon completion of the whole of the plumbing works, the RLP shall report completion via WWO 46A Part IV with the following supporting documents and WWO 1156A<sup>8</sup> (<b>Appendix D</b>) duly signed by the applicant: <ul style="list-style-type: none"> <li>(a) Completion Certificate (<b>Appendix E</b>);</li> <li>(b) As-built drawings;</li> <li>(c) As-built WWO 1149A (<b>Appendix F</b>);</li> <li>(d) Inspection Checklist (<b>Appendix G</b>);</li> <li>(e) Self-certification of meter positions (<b>Appendix H</b>); and</li> <li>(f) Written request to accredited laboratory for water sampling test<sup>9</sup></li> </ul> </li> <li>In the Completion Certificate, the RLP shall certify that: <ul style="list-style-type: none"> <li>(a) The plumbing works have been carried out in</li> </ul> </li> </ul>

<sup>8</sup> WWO1156A can also be submitted together with WWO 46A Part I & Part II.

<sup>9</sup> The corresponding water sampling test reports are to be dispatched directly to the WA by the laboratory in line with the current practice.

	Key procedure	Proposed workflow
		<p>accordance with the approved plumbing proposals and as-built records, and in compliance with the WWO/WWR and the WA's requirements.</p> <p>(b) If copper pipes are used, a declaration that lead-free solders have been used for making all solder joints or soldering has not been adopted. All the required acceptance tests <sup>10</sup> are properly conducted and of satisfactory results.</p>
4	The WA to approve effect of water supply without inspection	<ul style="list-style-type: none"> <li>The WA will check whether all the required documents are submitted and in order. Upon receiving the water sample test report(s) from the laboratory which indicates satisfactory results, the WA will issue WWO 46A Part V to effect water supply without final inspection and approval letter for WWO 1156A within 2 weeks from the receipt of WWO 46A Part IV.</li> <li>The RLP will arrange to collect separate water meters (either mechanical or smart type) from WSD.</li> </ul>
5	The RLP reports completion of installation of separate water meters and double check valves (if applicable)	<p>Upon completion of the installation of separate water meters and double check valves (if applicable), the RLP shall submit:</p> <p>(a) completed meter installation table (MIT);</p> <p>(b) completion photos; and</p> <p>(c) self-certification of satisfactory completion of meter arrangement check (MAC), installation of double check valve (if applicable) and no water point other than that for flushing (if applicable) before the meter position of separate water meters (<b>Appendix I</b>).</p>
6	The WA to process account for each meter	The WA will check whether all required documents are submitted and in order. The WA may conduct audit check on the MAC and MIT before processing the account for each meter.
7	The WA to issue certificate	WSD will issue, within 2 weeks upon receiving all required documents, certificate to the applicant to certify completion of installation of separate water meters for SDUs, with a reminder to the applicant that those meters shall be removed if the SDUs concerned have not been recognised as BHUs ( <b>Appendix J</b> ).

### Compliance and Surveillance Check (only applicable to Scenario (A))

9. For the purpose of monitoring compliance, the WA will select cases on a risk-based manner (e.g. 5%) and arrange with the RLP to carry out on-site inspection audit.

<sup>10</sup> For example, swab tests for lead content at solder joints.

	Key procedure	Proposed workflow
4a	For monitoring compliance, the WA to select cases on a risk-based approach for site inspection before approving supply of water	For selected cases, the WA makes an appointment with the RLP for final inspection within 5 working days of receiving WWO 46A Part IV. If no non-compliance (NC) is observed during the final inspection, the WA grants approval to effect water supply. For minor NCs <sup>11</sup> , the WA grants approval with an undertaking from the RLP that the NC(s) will be rectified in 14 days from the date of such approval. For non-minor NCs <sup>12</sup> , the WA issues WWO 1008 and withholds approval until all NC(s) is rectified.
4b	After the effect of water supply	Should there be NC(s) spotted after the effect of water supply, the WA issues a repair notice (i.e. Form K) under Section 16 of the WWO to the responsible party for rectification under the current requirements and procedures.

10. During the on-site inspection audit, the WA shall verify the results of the completed inspection checklist prepared by the RLP. For any disagreement on the inspection result, the WA shall mark on the inspection checklist as appropriate and both the WA and the RLP shall sign next to the amendment(s). WWO 1008, based on the inspection result as marked on the checklist, shall be issued to the RLP accordingly. Any non-minor NCs should be rectified by the RLP to the satisfaction of the WA before approval to effect water supply is granted via WWO 46A Part V.

11. Should there be NC(s) spotted after the effect of water supply, the WA will issue a repair notice to the responsible party for rectification.

#### Scenario (B)

	Key procedure	Proposed workflow
1	The applicant to employ an eligible LP as RLP for the plumbing works, installation of separate water meters and double check valve (if applicable)	The applicant to employ an eligible LP as RLP and submit notification to the WA to join the Scheme ( <b>Appendix B</b> ).
2	The WA to approve WWO 1156A	<ul style="list-style-type: none"> <li>• The RLP shall submit: <ul style="list-style-type: none"> <li>(a) Self-certification of meter positions (<b>Appendix H</b>); and</li> <li>(b) WWO 1156A (<b>Appendix D</b>).</li> </ul> </li> <li>• The WA will approve WWO 1156A within 2 weeks upon receipt, and the RLP will arrange to collect</li> </ul>

<sup>11</sup> Minor NCs refer to those items in WWO 1008 Part B concerning non-compliance with the WA's requirements which do not adversely affect water quality and supply reliability.

<sup>12</sup> Non-minor NCs refer to those items in WWO 1008 Part A concerning contravention of WWO/WWR and those in Part B concerning non-compliance with the WA's requirements which adversely affect water quality and supply reliability.

	Key procedure	Proposed workflow
		separate water meter (either mechanical or smart type from WSD).
3	The RLP to report completion	Upon completion of the installation of separate water meters and double check valves (if applicable), the RLP shall submit: (a) completed MIT; (b) as-built drawings; (c) completion photos; and (d) self-certification of satisfactory completion of MAC, installation of double check valve (if applicable) and no water point before the meter position of separate water meters ( <b>Appendix I</b> ).
4	The WA to process account for each meter	The WA will check whether all the required documents are submitted and in order. The WA may conduct audit check on the MAC and MIT before processing the account for each meter.
5	The WA to issue certificate	WSD will issue, within 2 weeks upon receiving all required documents, a certificate to the applicant to certify completion of installation of separate water meters for SDUs, with a reminder to the applicant that those meters shall be removed if the SDUs concerned have not been recognised as BHUs ( <b>Appendix J</b> ).

12. If the applicant chooses not to join the Scheme, WSD will follow the prevailing procedures to process the application.

### **Effective Date**

13. The above Scheme takes immediate effect.

### **Enquiry**

14. Should you have any enquiry, please contact our Engineer/Technical Support(5) at telephone no. 2829 4574.

## List of Appendices

- Appendix A – Technical Requirements for Installation of Separate Water Meters for Subdivided Units (SDUs)
- Appendix B – Notification Form for Joining the Self-Certification Scheme
- Appendix C – Form WWO 46A
- Appendix D – Form WWO 1156A
- Appendix E – Completion Certificate of Plumbing Works
- Appendix F – Form WWO 1149A
- Appendix G – Inspection Checklist
- Appendix H – Self-Certification of Meter Positions and Associated Works
- Appendix I – Self-Certification of Installation of Separate Water Meters and Double Check Valves (if applicable)
- Appendix J – WSD's Certificate of Completion of Installation of Separate Water Meters for SDUs

### 3.6 Installation of Separate Water Meters for Subdivided Units in Residential Premises

#### 3.6.1 General Requirement

- #3.6.1.1 A separate water meter shall be installed for each subdivided unit (SDU) for recognition as Basic Housing Unit (BHU), where the SDUs concerned shall be in a flat in domestic building or domestic portion of composite building and there are separate plumbing systems for individual SDUs.
- #3.6.1.2 Under prevailing technical requirements, salt water or temporary flushing main (TMF) approved by the WA shall be used for flushing purpose. A control valve shall be installed before each flushing cistern.
- #3.6.1.3 If for valid technical reasons, the applicant is unable to provide or restore the requirement of using salt water from the main building or TMF approved by the WA for flushing purpose for the respective SDU, the applicant may apply to WA for using fresh water for flushing in lieu. Such an application will be considered and approved on a case-by-case basis and the fresh water supply for flushing in this regards shall be installed with a flushing meter and branched off before all separate water meters. A double check valve shall be provided for each branch of the fresh water flushing system and a control valve shall be installed before each flushing cistern.

#### 3.6.2 Application and Plumbing Requirements

- #3.6.2.1 SDUs requiring installation of separate water meters and other plumbing works<sup>1</sup>, viz. Scenario (A), shall follow the procedures and requirements stipulated below:
- (i) The applicant should appoint a responsible licensed plumber (RLP) to submit WWO 542 with a plumbing proposal with notification to the Water Authority (WA) to join the self-certification. The proposed plumbing works shall follow standard plumbing drawings for SDUs (FIG. SDU-SPD01-06). The proposed plumbing works shall not include any concealed pipe while at least one control valve shall be installed for and as close to each SDU, which should be easily accessible. The RLP shall clearly demarcate the existing plumbing system and the proposed plumbing works to be carried out by him/her in the plumbing proposal.
  - (ii) The WA will reply to the applicant to approve/comment on the application within 2 weeks of receipt.
  - (iii) The RLP should submit WWO 46A Part I and Part II to the WA for approval before commencement of the plumbing works.

---

<sup>1</sup> Except plumbing works of a minor nature.

- (iv) WWO 1149 may not be required to be submitted along with WWO 46A Part I and Part II, but the RLP should undertake that the pipes and fittings to be installed are with General Acceptance (GA) and in accordance with the Waterworks Ordinance (WWO)/Waterworks Regulations (WWR) and the WA's requirements.
- (v) The WA will issue WWO 46A Part III with the approved drawings marked with water sampling point(s) and location(s) for non-destructive tests on lead content at solder joints, or reply with comments.
- (vi) Upon completion of plumbing works, the RLP should submit WWO 46A Part IV with supporting documents<sup>2</sup>, and WWO 1156A<sup>3</sup> duly signed by the applicant, to apply for installation of separate water meters and double check valves and flushing meter for flushing facilities using fresh water (if applicable). The RLP shall clearly demarcate the existing plumbing system and the plumbing works covered by the above WWO 46A part IV in the as-built drawings.
- (vii) The WA will check whether all the required documents are submitted and in order. Upon receipt of satisfactory result of water sampling tests, the WA will issue WWO 46A Part V to effect water supply without final inspection and approval letter to WWO 1156A within 2 weeks from the receipt of WWO 46A Part IV, and the RLP will then arrange to collect separate water meters (either mechanical or smart type) from WSD.
- (viii) The RLP should submit completed meter installation table (MIT), completion photos, and self-certification of satisfactory completion of meter arrangement check (MAC), installation of double check valve (if applicable) and no water point other than that for flushing (if applicable) before the meter position of separate water meters. The WA may conduct audit check on the MAC and MIT before processing account for each meter.
- (ix) WSD will issue a certificate to the applicant to certify completion of installation of separate water meters for SDUs within 2 weeks.

---

<sup>2</sup> Supporting documents include:

- (a) Completion certificate;
- (b) As-built drawings;
- (c) As-built WWO 1149A;
- (d) Inspection checklist;
- (e) Self-certification of meter positions and associated works; and
- (f) Written request to accredited laboratory for water sampling test

<sup>3</sup> WWO 1156A can also be submitted together with WWO 46A Part I & Part II.

#3.6.2.2 Existing SDUs requiring plumbing works only includes installation of separate water meters<sup>4</sup>, viz. Scenario (B), shall comply with the following requirements:

- (i) The applicant should notify the WA to join self-certification.
- (ii) The RLP should submit completion certification of meter positions and associated works and WWO 1156A duly signed by the applicant to apply for installation of separate water meters and double check valves for flushing facilities using fresh water (if applicable).
- (iii) The RLP shall clearly demarcate the existing plumbing system and the proposed plumbing works to be carried out by him/her in the plumbing proposal.
- (iv) The WA will issue approval letter to WWO 1156A within 2 weeks, and the RLP will collect separate water meters (either mechanical or smart type from WSD).
- (v) The RLP should submit completed MIT, completion photos, and self-certification of satisfactory completion of MAC, installation of double check valve (if applicable) and no water point other than that for flushing (if applicable) before the meter position of separate water meters. The WA may conduct audit check on the MAC and MIT before processing account for each meter.
- (vi) WSD will issue a certificate to the applicant to certify completion of installation of separate water meters for SDUs within 2 weeks.

#3.6.2.3 Participation in the above self-certification approach is on a voluntary basis. If the applicant chooses not to join the Scheme, the application workflow will remain unchanged and the RLP will not be required to certify the plumbing works, meter position and associated works whereas the WA will conduct site inspection following the prevailing procedures.

### 3.6.3 Meter Position Requirement for Smart Water Meter

#3.6.3.1 The meter position requirements stipulated in Section 3.2 are not applicable.

#3.6.3.2 Sufficient working space shall be allowed at meter positions for installation and maintenance of separate water meters.

---

<sup>4</sup> And other plumbing works of a minor nature.

- #3.6.3.3 The smart meters can be installed within a corridor in the shared part of the flat housing SDUs. If they are proposed to be installed inside individual SDUs, separate application with justifications should be submitted to seek the WA's approval.
- #3.6.3.4 For meters installed in a corridor in the shared part of the flat housing of the SDUs, the minimum clear width and height of the corridor as stipulated in the Code of Practice on the Minimum Standards of Living Conditions under Basic Housing Units Regulatory Regime shall be maintained.
- #3.6.3.5 The RLP shall verify the 4G signal strength at the meter positions and record in Annex to WWO 1156A.
- #3.6.3.6 A control valve shall be provided at meter position and before each separate water meter.

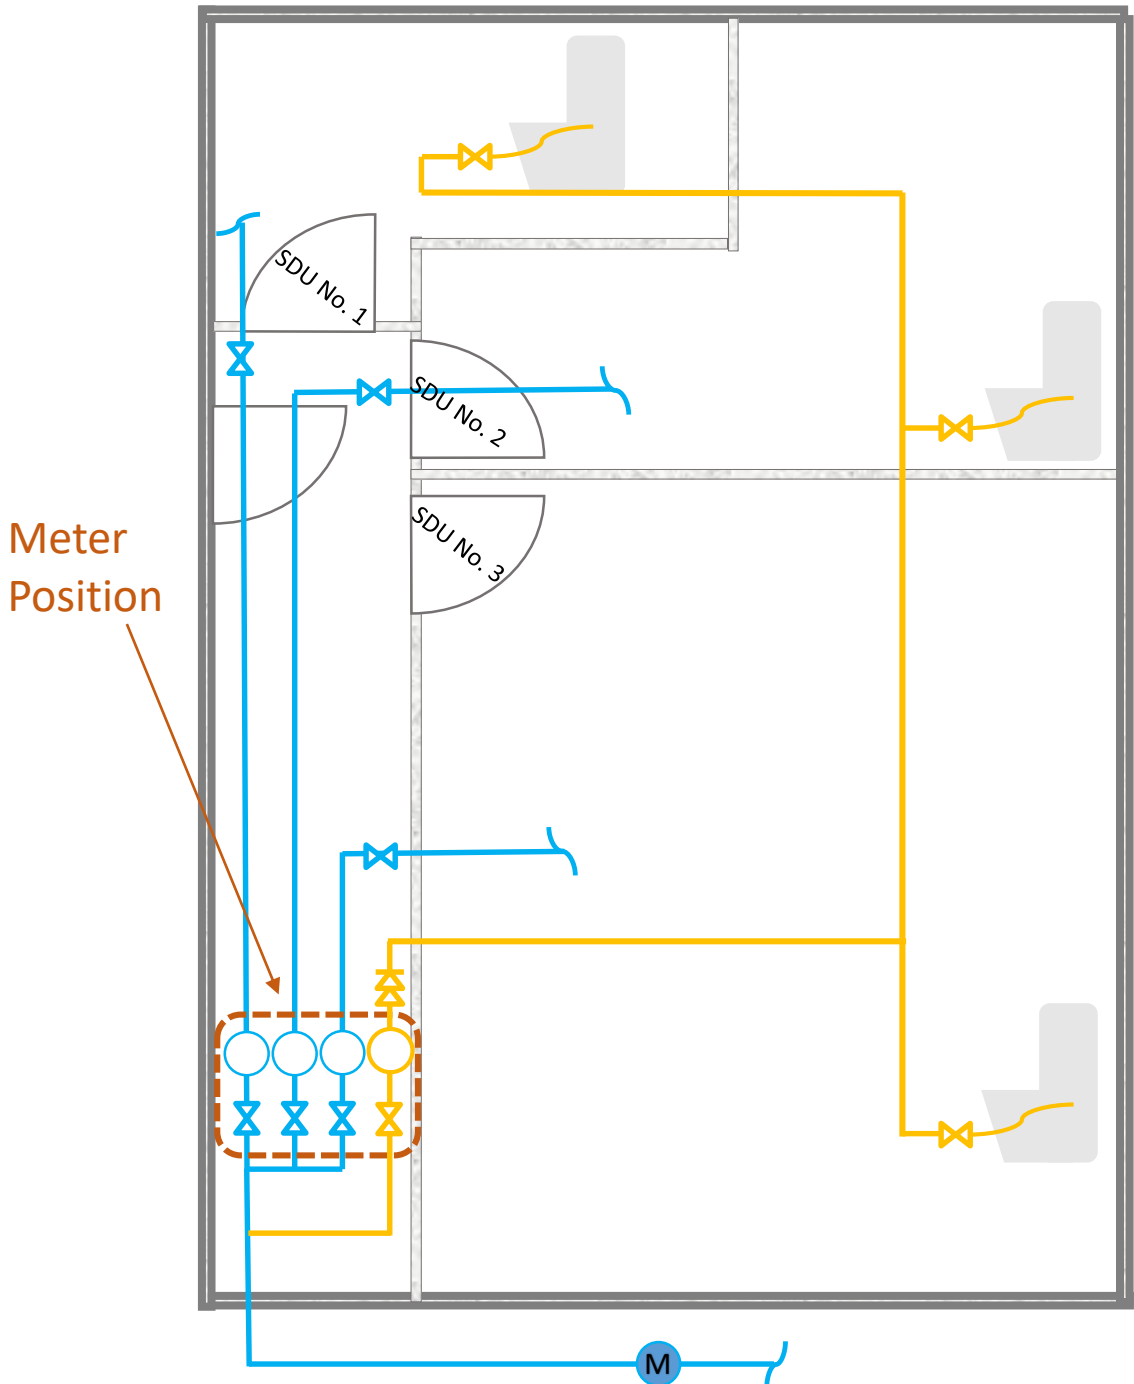

#### 3.6.4 Meter Position Requirement for Mechanical Water Meter

- #3.6.4.1 The mechanical water meters shall be installed in a corridor in the shared part of the flat housing SDUs, or at the common parts of the corresponding building.
- #3.6.4.2 All separate water meters, shall be arranged in groups and installed as close to the door to the premise as practicable. No meter shall be installed at a position lower than 300 mm nor higher than 1,500 mm above the floor level. Minimum clearance should be provided for water meters according to Fig. 36.
- #3.6.4.3 For meters installed in a corridor in the shared part of the flat housing of the SDUs, the minimum clear width and height of the corridor as stipulated in the Code of Practice on the Minimum Standards of Living Conditions under Basic Housing Units Regulatory Regime shall be maintained.
- #3.6.4.4 Fittings at meter position shall facilitate easy installation and removal of the water meter without the need to work on other pipes.
- #3.6.4.5 A control valve shall be provided at meter position and before each separate water meter.

## Notes:-

1. The Form is applicable to premises supplied or to be supplied with water from the Waterworks. Part I of the Form is to be completed by the responsible licensed plumber to apply for the permission by the Water Authority of the commencement of the works under the Approved Plumbing Proposals covered by this Form. Part II is to be completed by the consumer<sup>#</sup>/agent<sup>#</sup>/applicant of new water supply. Omission of any details in the Form may cause delay to your application.
2. Part I and Part II of this Form shall be submitted to the Water Authority for permission to commence the construction, installation, alteration or removal of the works under the Approved Plumbing Proposals covered by this Form.
3. The Form shall be mailed/faxed to the Water Authority.
4. Different sets of Forms are required for different phases of the plumbing that require water supply at different dates. **The consumer<sup>#</sup>/agent<sup>#</sup>/applicant of new water supply in Part II and/or the responsible licensed plumber in Part I shall inform the Water Authority in writing whenever there is any change to the 'anticipated date when water supply is required' in Part I of the Form.**
5. On completion of processing the application, the responsible licensed plumber and the consumer<sup>#</sup>/agent<sup>#</sup>/applicant will receive Part III of the Form with a Form Serial No. printed on it. A copy of Part I and Part II of the Form will also be returned.
6. Reporting completion of part of the works covered by this Form (including water pipe to be concealed) shall be made in Part IV of the Form. The responsible licensed plumber and consumer<sup>#</sup>/agent<sup>#</sup>/applicant as appropriate, should complete Part IV of this Form and submit it together with a copy of Part I, Part II and Part III of this Form to report completion of the works covered by this Form. **Please quote Form Serial No. and ASN on Part IV.**
7. The responsible licensed plumber should always be aware of the anti-corruption laws and avoid to contravene them during their course of works. For details, please refer to the website of Independent Commission Against Corruption at <http://www.icac.org.hk/>

<sup>#</sup> The meaning of 'consumer' and 'agent' shall be as defined in Section 2 of the Waterworks Ordinance.

### 3. Separate Water Meters

Meter no. currently serving the flat \_\_\_\_\_  
No. of separate water meters applied for (mechanical type) \_\_\_\_\_  
No. of separate water meters applied for (smart type) \_\_\_\_\_  
(please submit **Annex** to this form)  
Room no. of SDUs (e.g. sub-unit A/B/C or 1/2/3, etc.) \_\_\_\_\_

### 4. Flushing Facilities

- I/we confirm the above subdivided units adopting salt water/temporary main flushing (TMF) for flushing as approved by the WA
- I/we hereby apply to the WA for using fresh water for flushing due to the following reason. (Please mark the flushing water pipe, proposed locations for flushing meter(s) and double check valve(s))

\_\_\_\_\_  
(Please tick (✓) the appropriate box )

No. of subdivided units \_\_\_\_\_  
No. of flushing facilities using fresh water \_\_\_\_\_  
No. of flushing meters applied \_\_\_\_\_  
No. of double check valves to be installed \_\_\_\_\_

### 5. Information of Responsible Licensed Plumber *(Note 8)*

Name: \_\_\_\_\_ Day-time tel. no.: \_\_\_\_\_  
Mailing address: \_\_\_\_\_  
Plumber's licence no.: \_\_\_\_\_

### 6. Documents required to be submitted with Application Form

A copy of \*Identity Card No./Identity Proof Document No./Business Registration. *(Note 3)*

Document to prove the entire SDU flat is under the management of the applicant. *(Note 4)*

Layout plan of SDUs flat showing (a) location of meter positions and (b) each SDU served by respective plumbing and separate meter.

### 7. Applicant's Undertaking and Agreement

I / We fully understand and agree to abide by the content of items (A) - (F) of the undertaking and agreement below, as well as the payment rules (if applicable) in accordance with the provisions of this undertaking form *(Notes 5 & 6)*.

\* Delete where inappropriate

## UNDERTAKING AND AGREEMENT

- (A) The applicant agrees:
- (i) that the following criteria are met for this application:
    - the flat is split into two or more SDUs;
    - the flat is in domestic building or domestic portion of composite building; and
    - there is separate plumbing system for each SDU.
  - (ii) to facilitate installation of separate water meters and confirm with his/her licensed plumber that the meter positions proposed for the separate water meters in the flat meet the following requirements:
    - locate either at the common area outside the flat, the common corridor of the flat but as close to the door of the flat as practicable or inside individual SDUs (subject to the WA's approval);
    - cater for the installation of one stopcock or gate valve at the upstream of the meter; and
    - the works do not involve soldering for connecting copper pipes.
  - (iii) to notify the Water Authority (WA) promptly, should there be any subsequent changes which makes the criteria in (i) or (ii) cannot be met;
  - (iv) to facilitate the Water Supplies Department (WSD) staff to enter all SDUs during site inspections in respect of the application;
  - (v) to employ a licensed plumber to install, remove or replace (when requested by the WA) the separate water meters (either mechanical or smart type) and inform him/her of the requirements ((ii) above) for the works;
  - (vi) to register as the consumer of the inside service solely serving the flat including the inside service serving the SDUs from the date of this application form;
  - (vii) to allow WSD to deliver duplicate water bill to each SDU tenant by post, where such duplicate water bill does not bear the name and the mailing address of the registered consumer;
  - (viii) upon request by the WA, the applicant shall self-read the meter readings and report to the WSD within the first three working days at each 4-month bill interval;
  - (ix) to provide assistance to remove obstruction and allow WSD staff to enter the flat and all SDUs therein to take meter readings or inspect/replace/repair/maintain the meters when necessary;
  - (x) to remove and return the separate water meters to the WA if the SDUs failed to be recognised as BHUs; and
  - (xi) not to recover the water charge of flushing meter from the tenants;
  - (xii) if water meters (smart type) is applied in the application, to handover the meter interfacing units (MIUs), pulse counters (if any) and sim cards to the WSD upon effect of water at designated SDUs .
- (B) The applicant should note that the approval for meter installation does not mean any compliance of the inside service or absolve the applicant's responsibility to seek other statutory approvals required. The WSD reserves the right to take appropriate enforcement action if it is later confirmed that there is non-compliance in the inside service of the flat.
- (C) Pursuant to Section 7 and Section 19 of the Waterworks Ordinance (Cap 102), the applicant undertakes to pay to the Government of the Hong Kong Special Administrative Region any charges and deposit (*Note 5*) due in respect of the inside service in the flat as provided in the Waterworks Ordinance (Cap. 102) and the Waterworks Regulations (Cap. 102A). The applicant undertakes to be responsible for the custody and maintenance of the above-mentioned inside service and the custody of any meter pertaining to the inside service in the flat (*Note 7*). The applicant may also be required to pay charges and surcharges (including but not limited to sewage charges and trade effluent surcharges) imposed under the Sewage Services Ordinance (Cap. 463) and any regulations made under the Sewage Services Ordinance.
- (D) The applicant fully understands and agrees that the WA may use the data collected from the applicant in connection with this application for the purposes of, or directly related to, the processing of this application, any work to be carried out by the WA and the general management, administration of the waterworks or the above mentioned inside service/communal service. If the applicant does not provide sufficient data, the WA may not be able to process the application.
- (E) The applicant agrees that if he/she is found breach of the undertaking and agreement of items (A) and (D) above, the WSD will consider withdrawing the approval to the applicant and carrying disconnection of water supply to the flat.
- (F) The applicant should confirm with his/her licensed plumber and declare that the works associated with the construction of meter positions for separate meter installation are of a minor nature (*Note 8*).

Signature of the applicant / Signature of  
Date: \_\_\_\_\_ Authorised Person with company's chop: \_\_\_\_\_

## Notes:

1. Pursuant to Section 5 of the Sewage Services Ordinance, sewage charges and trade effluent surcharges (if applicable) are payable by the consumer/agent whose flat are connected to public sewers. For enquiry, please contact the Drainage Authority.
2. The type of water supply under this application shall be “domestic supply”.
3. For a firm/company, a photocopy of the Business Registration Certificate should be attached to the application. For individual applicant, he/she should attach a photocopy of his/her identity card or identity proof document (e.g. Passport) for our checking of identity. The photocopy of identity card and identity proof document will be destroyed immediately after the checking process.
4. The applicant of this application shall be the owner or the person who is responsible for management of the entire flat. If the applicant is the owner, he/she should submit a document to prove his/her identity as the owner (e.g. a photocopy of the Land Register). If the applicant is not the owner, he/she should submit additional document(s) to prove that he/she is the person who is responsible for management of the entire flat. (e.g. a photocopy of the tenancy agreement signed by the owner and the applicant, or a photocopy of the authorisation letter signed by the owner. The full name and the signature of the owner shall be clearly shown in the document). The applicant should submit the document(s) concerned with the application form and other necessary documents for our checking.
5. The deposit paid under this undertaking for the current meter serving the flat is not transferable and may be applied by the WA at any time to the payment of any charges.
6. The WA may demand water and sewage charges based on the difference in water consumption between the current water meter of the flat and all separate water meters installed for SDUs if necessary.
7. Pursuant to Section 20 of the Waterworks Ordinance (Cap. 102) and Section 5 of the Sewage Services Ordinance (Cap. 463), the liability of the consumer shall continue until:
  - (a) another consumer is approved by the WA in his/her place; or
  - (b) this undertaking is cancelled by the WA, notwithstanding that
    - (i) the consumer ceases to occupy the flat;
    - (ii) the consumer ceases to be responsible for the management of the flat or any part thereof; or
    - (iii) the WA exercises any power under Sections 8, 9, 10 or 19(2) of the Waterworks Ordinance (Cap. 102).Should the consumer wishes to cancel the undertaking, the consumer/agent should promptly notify the WA.
8. The applicant should consult his/her licensed plumber if the plumbing works to form the meter positions fall into works of a minor nature and read through the associated WSD’s website: <https://www.wsd.gov.hk/en/plumbing-engineering/works-of-a-minor-nature/index.html>
9. Address of the Drainage Authority: G/F, Western Magistracy, 2A Pok Fu Lam Road, Hong Kong / Tel: 2834 9432 / Fax: 3104 6433 / Email: customer\_services@dssd.gov.hk

**REQUEST FOR SMART WATER METER IN ADVANCED METERING  
INFRASTRUCTURE (AMI)**

---

**Part A (To be completed by the applicant)**

To: The Water Authority,

I hereby notify that I request for \_\_\_\_\_ no. of smart water meters in AMI for installation as separate water meters for the premise at \_\_\_\_\_, and

- I will pay the Water Authority for the meter interfacing units (MIUs), pulse counters (if any) and sim cards at the standard charge as published in the WSD's website: <https://www.wsd.gov.hk/en/plumbing-engineering/automatic-meter-reading/index.html>
- I will procure the MIUs, pulse counters (if any) and sim cards on my own according to the Specification as published in the WSD's website: <https://www.wsd.gov.hk/en/plumbing-engineering/automatic-meter-reading/index.html>

(Please tick (✓) the appropriate box )

Regarding the location of the smart meters,

- they will be installed in the common area of the flat housing the SDUs.
- I will apply for the Water Authority's approval to installing them inside individual SDUs, with justifications enclosed.

(Please tick (✓) the appropriate box )

I shall appoint \_\_\_\_\_ (*name of the licensed plumber*) to check the 4G signal strength at the proposed meter positions is complied with the requirements as stated in the aforementioned published in the WSD's website.

## Completion Certificate of Plumbing Works

Address: \_\_\_\_\_

To: The Water Authority,

I refer to the WWO 46A Part IV enclosing the completed inspection checklist amongst other supporting documents. I certify that:

- (a) the as-built drawings tally with the plumbing proposal and the plumbing system (including the existing plumbing system and the plumbing works carried out as covered by the above WWO46A Part IV) within the flat housing SDUs);
- (b) the plumbing works covered by the above WWO 46A Part IV have been carried out and completed in accordance with the approved plumbing proposal, as-built drawing(s) and as-built material schedule (WWO 1149A);
- (c) the plumbing works carried out as covered by the above WWO 46A Part IV comply with the provisions of the Waterworks Ordinance (Cap. 102), the Waterworks Regulations (Cap. 102A), the Water Authority's requirements and the applicable requirements set out in Technical Requirements for Plumbing Works in Buildings, Guide to Application for Water Supply and the Water Supplies Department Circular Letters issued by the Water Authority;
- (d) \*lead-free solders have been used for all solder joints (if copper pipes are used) / soldering has not been adopted; and
- (e) inspection(s) and acceptance test(s) conducted are of satisfactory results.

I have reviewed and am satisfied with the attached completed inspection checklist(s).
