

## Treasure Our Water (1)

### English dialogue

- Tourist guide voice-over : Mountain streams and impounding reservoirs in Hong Kong are precious natural resources
- Tourist guide : Not only do they provide us with fresh water  
But they also provide wildlife animals with water for survival  
What are you trying to do?
- Female hiker A : My legs are sore after such a long hike
- Female hiker B : Right. The water is so refreshing  
Must be awesome to soak my feet in it
- Tourist guide : Hold on! Who says you can soak your feet in here?  
This is an impounding reservoir. You'll contaminate the fresh water
- Female hiker A : Why not?
- Female hiker B : See. Everyone else does the same
- Tourist guide : Play all you want. Don't kick the football into the water  
Hey! Guys...  
guys...  
You...  
How can you do this?  
God! I think I'm going to lose it
- Everyone : Lose what?
- Tourist guide : My temper  
It's you
- Water Save Dave : Apply some medicated oil
- Male student : Nothing's allowed. He just won't stop talking  
Luckily, I come prepared  
Now this is sightseeing  
It's a must to play in the water here in the countryside

- Female student : Wait!  
I've brought some good stuff as well  
If we're to have fun, we might as well play with  
something more exciting
- Male student : Absolutely!
- Female student : Leave me alone. We don't have much time!  
Who are you?
- Water Save Dave : I'm Water Save Dave from the Water Supplies  
Department  
You'll violate the Waterworks Ordinance if you do so
- Everyone : What Ordinance?
- Water Save Dave : Any person who enters  
or bathes or washes in water forming part of the  
waterworks  
e.g. water gathering grounds, catchwaters and  
impounding reservoirs, etc.  
washes animals, or causes or permits any animal to enter  
therein, throws or places any thing therein  
shall be guilty of an offence with a maximum fine of  
\$50,000 and imprisonment for 2 years
- Male student and female student : Don't be dramatic
- Tourist guide : No. I'm not  
Hong Kong's catchwaters, water gathering grounds and  
impounding reservoirs are precious water sources  
It is our responsibility to protect them from pollution
- Water Save Dave : Think about it  
Even though our fresh water undergoes a series of  
treatment processes  
the water gathering grounds and the impounding  
reservoirs are the sources of fresh water  
Shouldn't we protect them?

- Super : Waterworks Ordinance  
any person who  
(a) enters, or bathes or washes in, water forming part  
of the waterworks;  
(b) washes or causes or permits any animal to enter  
therein; or  
(c) throws or places any thing therein, shall be guilty  
of an offence.
- Male student : So there's nothing we can play with?
- Water Save Dave : The fact is, as long as we treasure the natural  
environment and  
protect our water sources properly, you can have as  
much fun as you want
- Female student : We get it!
- Male student : Let's go and play!
- Everyone and  
Water Save Dave : Visit the website of the Water Supplies Department at  
[www.wsd.gov.hk](http://www.wsd.gov.hk)  
to learn ways of keeping the water sources clean
- Super : [www.wsd.gov.hk](http://www.wsd.gov.hk)  
Treasure our water while enjoying the beautiful scenery  
of the countryside
