45	M25	NTE	CW051	A	1,833	Tai Mei Tuk Catchwater	大美督引水道	大美督 Tai Mei Tuk

Notes :

1. Installation Nos. CW003 to CW004, CW005 to CW006, CW027 to CW028 & CW031 to CW034 are grouped under catchwater systems H2, H4, M5 and M8 (4 Nos.) respectively. Catchwater systems M1 with Installation No. CW024 and M1 with Installation No. CW025 are counted as 2 separate catchwater systems. As such, there are totally 45 catchwater systems maintained by WSD.
2. The 4 catchwater systems covering Installation Nos. CW031 to CW037 were excluded from this Assignment which had already been included in the previous Feasibility Study on improvement of Shing Mun, Beacon Hill, Golden Hill and Tai Lam Chung Catchwater Systems (Sections L, M, N and O). This Assignment is to prioritise the remaining 41 catchwater systems.
3. The catchwater with the entry “A” (or “B”) under the column “Gp” is a Group A (or Group B) catchwater classified under Stage I of the methodology for prioritisation of catchwaters recommended by the FS Consultants mentioned in Clause 2.8 of this Brief.
