

Water Safety Plan Subsidy Scheme

- Alex Fong : You don't have to do this to ensure water quality!
The water supplied by the Water Supplies Department is safe to drink
- Female friend : But the water quality could be affected by a building's plumbing system
- Alex Fong : The Water Safety Plan for Buildings should be implemented
so that plumbing systems are regularly inspected and maintained
A subsidy from the Government is now available
- Mother : Residents can then rest assured on drinking water safety in buildings!
- Everyone : Owners' organisations of eligible buildings can apply for the subsidy!
- Alex Fong : Visit the Water Supplies Department's website for details
