

Save Water, Take Shorter Showers

Transcript

Showers are refreshing
but did you know that
for every minute less you spend in the shower
you're saving 10 liters of water
To save our precious water
take shorter showers
and note the water efficiency label when choosing shower heads
4 water efficiency grades
Grade 1 is the most water efficient
It's equally refreshing to take shorter showers
and use water-efficient shower heads!

Save water

Take shorter showers
